

3. Car-smart condos

[November 6, 2014](#) [Duncan McAllister](#)

An automatic car parking silo.

A look at new trends and technologies for drivers and condos.

Car elevators, car shares, electric car charging stations, are all new initiatives that we'll be seeing more of. *Click on any picture for detailed view==>*

At The Barrington Condominium Flats, the parking garage is an example of contemporary forward-thinking. The automobile elevator will optimize capacity and efficiency, intelligently designed to whisk your car to its correct parking level.
